EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Clifford Mass on August 22, 2001.

The application has been amended as follows:

Claim 7, in Table 1, "0" has been changed to -- θ --.

Claim 7, after Table 1, --- has been inserted.

Claim 8, in Table 1, "0" has been changed to -- θ --.

2. The following is an examiner's statement of reasons for allowance: the prior art of record does not teach or suggest a catalyst having the instantly claimed composition with the XRD pattern instantly claimed or a method of making such a catalyst composition.

Budge (USP 5,055,599) is regarded by the examiner as the closest prior art. However, it is considered that the reference does not teach or suggest the instantly claimed ranges with specific specificity to motivate one of ordinary skill to choose the ranges instantly claimed to result in a composition having the XRD pattern as set forth in Table 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
